

Bisleri International, LAHDC and Ladakh Marathon Restore a 12 Lakh Litre Water Reservoir in Ladakh's Nubra Valley

Category: Business

written by News Mall | September 10, 2025

- This is the third reservoir restored in the region through the company's support
- The three reservoirs supply water to over 500 families in Nubra Valley for irrigation

Bisleri International, India's leading packaged drinking water company, inaugurated the third reservoir, restored in **Nubra Valley, Ladakh**, under its flagship initiative, **Project Nayi Umeed**. The reservoir, with a capacity to hold nearly **12 lakh (or 1.2 million) litres** of water, has been repaired and restored to ensure a reliable irrigation supply for farming

communities in the region.

Bisleri Greener Promise – The Reservoir of Hope 2025

The initiative was launched in collaboration with the **Ladakh Autonomous Hill Development Council (LAHDC), Leh**, with the **Ladakh Marathon** acting as the implementing agency. The inauguration ceremony was graced by **Shri Rigzen Lundup, Councillor – Tegar Constituency**.

The restored reservoir is connected to the Lakjung Irrigation Canal, which originates from the Shyok River and runs for approximately 14 kilometers. The canal provides critical irrigation to three major villages, stretching from Lakjung Trith up to Sumoor Village, and supports around 7,000 kanals (875 acres) of farmland. By ensuring a steady water supply, this project is expected to benefit 300 hundred farming families and strengthen the agricultural production in the Nubra Valley.

Speaking on the occasion, **Mr. K. Ganesh, Director – Sustainability & Corporate Affairs, Bisleri International**, said, *“Ensuring water security is critical for communities that are most vulnerable to the impacts of climate change. The*

*restoration of the third reservoir in Nubra Valley represents another step forward in strengthening agricultural resilience and empowering farming families in Ladakh. With every project under **Nayi Umeed**, we aim to provide long-term sustainable solutions that help secure livelihoods, support food security, and bring enduring prosperity to the region."*

Bisleri International Inaugurates Third Reservoir in Nubra Valley

Adding his perspective, **Shri Rigzen Lundup, Councillor – Tegar Constituency**, said, “Communities in Ladakh face increasing challenges due to rising temperatures and fluctuating snowfall, which reduce the availability of water for irrigation. In this context, restoration of the reservoir is a significant achievement that directly addresses our water needs. We are grateful for Bisleri’s continued commitment to Nubra Valley, and this project will enhance agricultural productivity and improve the lives of our farming families.”

Further, **Shri Chewang Motup, Founder & CEO, Ladakh Marathon**

mentioned, "As an implementing agency, we are proud to collaborate with Bisleri and LAHDC, Leh, in bringing this project to life. The restored reservoir not only ensures water availability but also showcases the power of partnerships in building climate-resilient communities in Ladakh."

This marks the third successful reservoir restoration project by Bisleri in Nubra Valley. Previously, in 2023 & 2024, the company restored reservoirs in Sumoor Village, benefitting over 200 households and ensuring irrigation for vast agricultural lands.

These initiatives carried out under Project Nayi Umeed, a part of the Bisleri Greener Promise philosophy, which underscores the company's dedication to combating climate change, ensuring access to safe and healthy water, and creating a robust circular economy. To date, Project Nayi Umeed has built or restored 336 check dams, harvesting nearly 28 billion litres of water, benefiting over 64,362 farmers family members across India, and irrigated more than 20,878 acres of land.

About Bisleri International Pvt. Ltd.

With a legacy of over 50 years, Bisleri International Pvt. Ltd. has grown to become one of the largest premium beverage businesses in India. Being the makers of the countrys largest-selling packaged drinking water, Bisleri follows a stringent process of 114 quality tests and a 10-stage purification. It remains true to its core value of providing consumers with pure, safe and healthy water.

Bisleri International has a strong presence with 128 operational plants and a robust distribution network of over 6,000 Distributors and 7,500 Distribution Trucks across India and UAE market.
