

Careervira Launches Vira AI, the India's First Universal AI Orchestrator, Powering LMS, LXP, HRMS, and ATS Tools into a Unified AI Ecosystem

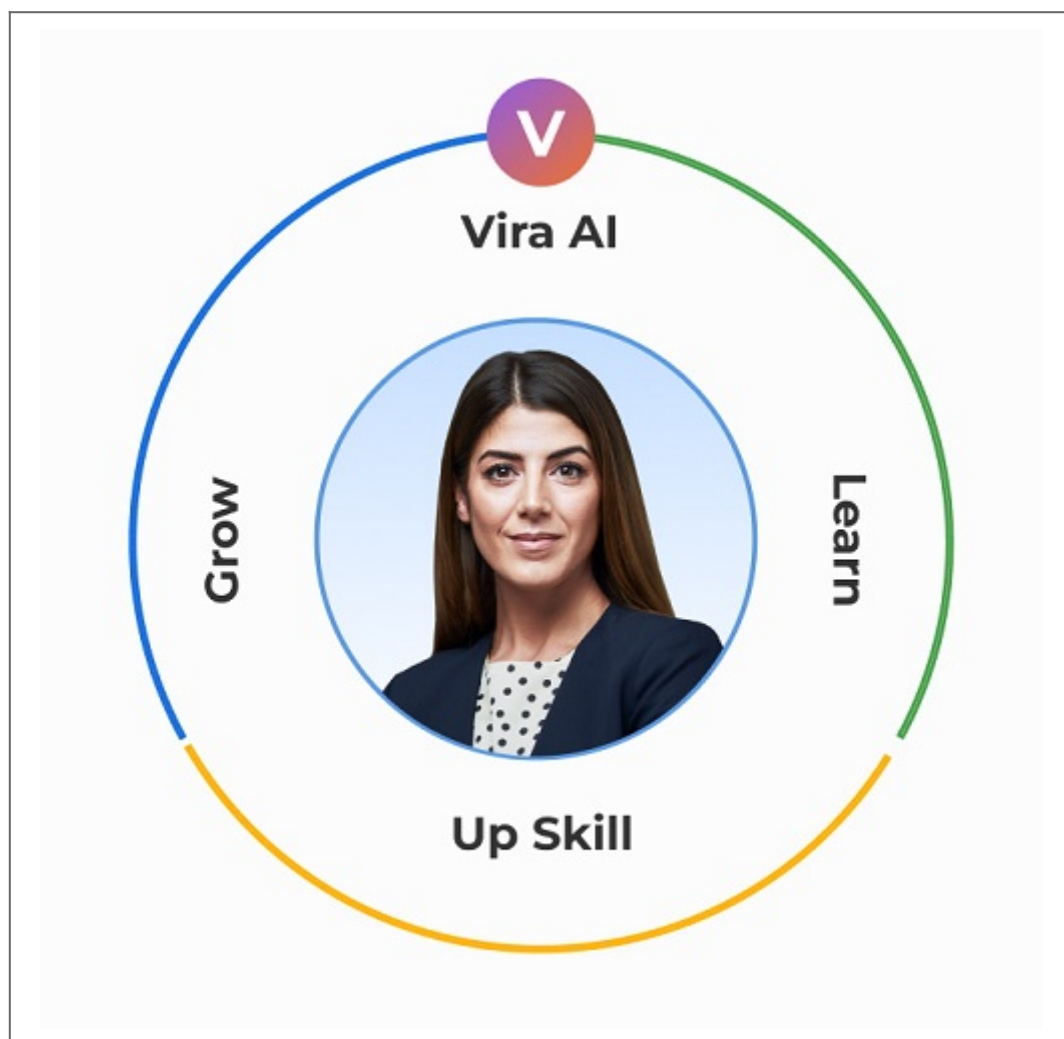

Category: Business

written by News Mall | February 12, 2026

Careervira today announced launch of [Vira AI](#), a breakthrough universal AI orchestrator designed to transform enterprise learning from administration to automated intelligence. Acting as a powerful orchestration layer, Vira AI sits on top of existing stacks—connecting LMS, LXP, HRMS, and ATS tools into a unified ecosystem. This launch marks the company's Phase II

evolution, building on its recognition as a globally top 10 ranked [Learning Management System](#) (LMS) and [Learning Experience Platform](#) (LXP) to deliver the first true “Universal AI Employee Platform” for mid-market enterprises. Founded in 2021 by Vijay Singh, former Google/YouTube leader for India and SEA, Careervira is a global AI First HRTech platform solving the mid-market productivity crisis.

Careervira AI: Learning & Talent Orchestration

Vira AI: The Universal Orchestrator That Does the Work

Vira at its core is a multi-agent architecture designed to automate 94%–98% of learning workflows. The system deploys specialized agents including:

- **Skill Intelligence Agents:** Achieve 70%-80% automation in

real-time skill-gap analysis and predictive insights.

- **Career Orchestration Agents:** Deliver automation in designing personalized career paths and succession planning.
- **Learning Orchestration Agents:** Provides automation for scheduling, content curation, and adaptive journeys.
- **Compliance Sync Agents:** Automation in regulatory tracking and audit reporting.

By automating these tasks, Vira AI returns 20+ hours per week to L&D managers, shifting focus from operations to strategy.

Powered by a Top 10 Global LMS and LXP Foundation

Vira AI launches on Careervira's established, elite LMS and LXP learning platform. Careervira solves the mid-market crisis by delivering enterprise-grade power without the complexity.

The platform provides robust tracking, analytics, and security, plus access to a marketplace of 40,000+ courses from 20+ providers and 1,000+ instructors across 148 countries. Vira AI turns this library intelligent, mapping content to skill gaps and deploying it through automated workflows to drive business impact.

Why Careervira Leads: The "Best in Class" Advantage

Careervira's leadership is driven by three pillars:

- **Universal Intelligence Layer:** Unlike "rip-and-replace" competitors, Careervira unifies existing tools LMS, LXP, HRMS, and ATS tools into a unified AI ecosystem, allowing modernization without IT overhauls.

- **Radical Automation:** Moving beyond simple tasks, agentic AI removes nearly 98% of routine processing for lean HR teams.
- **Breakthrough Affordability:** Capabilities are delivered at a disruptive \$2–\$10 per user/month—a 70% cost reduction versus legacy systems—making AI accessible to organizations with 100–5,000 employees.

About Careervira
