Key Highlights of the Event

The program focused on equipping attendees with advanced skills in **Minimally Invasive Surgery (MIS)**, such as laparoscopic and robotic techniques, and emphasized the importance of early diagnosis and comprehensive care for colon cancer patients. Esteemed faculty members delivered insightful sessions, including hands-on workshops, on evidence-based practices to improve patient outcomes.

The event was organized under the leadership of:

- Dr. Sandeep Nayak, Chairman
- Dr. Bharath, Organizing Secretary
- Dr. Sreekanth, Organizing Secretary

The program was held in collaboration with leading organizations, including the **Indian Association of Surgical Oncology (IASO)**, **Bangalore Oncology Group**, **Samrohana Cancer Foundation**, and **Fortis Hospital**.

Speaking at the event, **Dr. Sandeep Nayak, Chairman of COLOCON-2025**, said, *"Colon cancer is a growing concern in India, and the adoption of minimally invasive techniques is the need of the hour. By training young surgeons in these advanced methods, we are not just enhancing surgical precision but also improving patient recovery and outcomes. COLOCON-2025 is a step toward bringing Indian healthcare closer to global standards in cancer treatment."*

Impact and Takeaways:

- Surgeons gained in-depth knowledge of the latest advancements in laparoscopic and robotic techniques.
- Attendees were empowered to adopt global best practices

in colon cancer care.

- The program highlighted the importance of collaboration and capacity building in tackling the rising incidence of colon cancer in India.

Looking Ahead

COLOCON-2025 has set the stage for future initiatives aimed at transforming colon cancer care in India. The organizing team expressed gratitude to the participants, faculty, and partnering organizations for making this event a resounding success.
