

Halonix Lights Up Krishna Park Extension Metro Station of Delhi

Category: Business

written by News Mall | March 3, 2025

Halonix, a leading name in innovative lighting solutions and electrical goods, has provided a comprehensive and state-of-the-art lighting solution to the recently inaugurated Krishna Park Extension Metro Station in Delhi. The station, which was inaugurated by the Honble Prime Minister, Shri Narendra Modi, is the new model station for setting lighting standards for upcoming metro stations.

Halonix Lighting at Krishna Park Extension Metro Station of Delhi

Halonix's advanced lighting solutions deployed at this state-of-the-art metro station has significantly enhanced the aesthetics of the station by creating a welcoming and visually appealing ambiance and elevating the overall travel experience of commuters. At the same time it has ensured that all areas at the station are extremely well lit keeping in mind commuter safety and well-being. Last but not the least, it has deployed highly energy efficient LED lights thereby reducing adverse environmental impact.
