

# Happiest Health to Host Technology & Innovation in Healthcare Summit 2025: Paving the Path for the Future of Healthcare

Category: Business

written by | December 17, 2024

## TECHNOLOGY & INNOVATION IN HEALTHCARE SUMMIT '25

Health and wellness knowledge enterprise Happiest Health is all set to host Technology & Innovation in Healthcare Summit 2025 on January 23, 2025 at Taj Hotel M G Road, Bengaluru. With this unique summit Ashok Soota decided to marry his two areas of expertise, IT and now healthcare. He will be the keynote speaker with the theme "Technology & Innovation in Healthcare". The subject of his talk is aimed at giving participants ideas for innovative new solutions in healthcare. The summit promises to be a premier platform for exploring the cutting-edge technologies that are transforming the global healthcare landscape.

## TECHNOLOGY & INNOVATION IN HEALTHCARE SUMMIT '25

### Technology & Innovation in Healthcare Summit 2025

With a focus on the groundbreaking advancements in artificial intelligence (AI), robotics, telemedicine, and personalized

medicine, the summit will highlight how emerging technologies are improving patient care, streamlining healthcare delivery, and shaping the future of medicine. This year's event promises to be a big draw for a target audience of IT Service companies, start-ups focused on new technology in healthcare space, CXOs of top health care companies, etc.

### **Key Topics Include:**

- **AI-Driven Diagnostics:** Improving diagnostic accuracy and predicting health risks with AI.
- **Tomorrow's Doctor:** Shaping the future of healthcare providers through AI and robotics.
- **Faster Detection with Technology:** Tools for earlier disease detection and better outcomes.
- **Hospitals of Tomorrow:** The role of AI, IoT, and automation in healthcare delivery.
- **Gen AI in Healthcare:** Advancements in drug discovery and personalized treatments.
- **Blockchain in Health:** Enhancing security, privacy, and data sharing in healthcare.
- **EHR & Data:** Improving interoperability and decision-making through big data.
- **Health Tech:** Exploring wearable devices, telemedicine, and other emerging technologies.
