The Program stands out with its robust and practical approach to fostering success in the loan distribution industry. **Key features include:**

Flexible online and offline training Options, covering critical areas such as loan products, regulatory compliance, and customer service excellence, ensuring accessibility and convenience for participants across Maharashtra.

Practical Disbursal Benchmarks are required to be met by the participants to earn their certification, ensuring they are fully prepared to excel in real-world scenarios.

Earn while You Learn is a self-sustaining model designed to generate income while learning. The program allows participants to start earning as they acquire essential

skills.

In a nutshell it is a comprehensive, hands-on certification process, ensuring participants are well-prepared to succeed in the loan distribution industry. Key features include:

As the program continues to grow, **Hexafin is creating a diverse and dynamic ecosystem** of financial service providers. From referral partners and property dealers to B2C collaborators and retired professionals, the initiative is broadening access to credit in underserved communities and creating new opportunities for individuals across the state.

By bridging knowledge gaps in financial literacy across both urban and rural areas of Maharashtra, the Certified Loan Distributor Program is driving financial inclusion and **empowering people** with the tools to generate sustainable income. The program is cultivating a skilled workforce which is equipped to meet the growing demand for financial services. The program creates an impact through economic self-reliance and the creation of a robust network of well-trained professionals.

Commenting on the program's success, **Mr. Sanjeev Kokru**, a visionary and the Managing Director of Hexafin Consultancy Pvt. Ltd., stated, *"The Certified Loan Distributor Program is more than just a business venture-it's a catalyst for empowerment. By equipping individuals with the skills, they need to succeed in the financial sector, we're not only creating entrepreneurs but also uplifting entire communities. Maharashtra offers incredible potential, and our initiative is unlocking opportunities for both individuals and businesses. Through our learn-and-earn model, participants gain valuable knowledge while earning, ensuring a mutually beneficial experience."*
