**BriBooks' Legacy Authors League celebrates young pioneers who chose action over hesitation**

This isn't just about books. It's about building a legacy.

The Legacy Authors League was conceived to honour India's most proactive young minds – student authors who didn't wait for the “perfect” idea or moment. They took the plunge, poured their passion onto paper, and became published authors ahead of their peers. These young champions have proved that age is no bar when it comes to taking initiative, being bold, and leaving a mark.

### **Celebrating India's “Early-Movers” in Literature**

Unlike conventional contests that focus solely on literary merit, the **Legacy League** applauds initiative, originality, and execution. Winners were chosen across two prestigious categories – **Jury Choice** and **Best-Seller** – recognising both artistic excellence and reader popularity.

**“The Legacy League is about young people who lead from the front,”** said **Ami Dror, Founder and President of BriBooks.** *“They didn't just dream of writing a book – they finished it,*

*polished it, and published it. These authors are not just participants – they're pioneers."*

### **Legacy League – Jury Choice Winners**

- **Brother Trouble** – Anam Sharieff

- **The Divine Craftsmen – Part 2** – Darsh Bhalothia
- **The Holy World** – Yash Gohad

## **A National Movement of Young Creators**

The Legacy Authors League is just the beginning. It is the first of four national leagues that will culminate in India's largest celebration of student authorship through the Summer Book Writing Festival 2025. Next up: the Emerging Authors League, followed by two more exciting chapters, with participation expected to cross 1 million students from across India.

Winning students and schools will also be in the running for the prestigious Literary Leadership Awards, and top authors will represent India at the Sharjah International Book Fair, one of the world's most prominent global literary events.

## **About BriBooks**

BriBooks is the world's largest student publishing platform, empowering children to become published authors and inspiring them to dream big. Thousands of Indian students have already published their books through BriBooks – with many becoming best-sellers and literary role models for their peers.

As India's young authors continue to write their future – one book at a time – the Legacy League proves one thing: Great stories don't wait. And neither do great storytellers.
