

Jaipur Foot: Walk with Us to Make a Difference – Your Support Transforms Lives

Category: National News

written by News Mall | October 9, 2024

Jaipur Foot, the world's largest charitable organization providing prosthetic limbs free of cost, continues its mission of transforming lives. Led by Founder D.R. Mehta, the organization has benefitted over 2.2 million individuals worldwide. In a recent campaign held in Shirdi, Jaipur Foot provided life-changing prosthetic limbs to thousands in need, reaffirming its commitment to restoring mobility and dignity.

Grateful to help people transform lives

The **Shree Bhagwan Mahaveer Viklang Sahayata Samiti (BMVSS)**, under which Jaipur Foot operates, aims to help even more people globally. With a strong focus on accessibility and inclusivity, the organization provides high-quality prosthetic limbs, including the Jaipur Foot, a globally recognized

innovation that allows users to walk, run, and engage in everyday activities. All devices are provided entirely free of charge, ensuring that financial constraints never limit someone's ability to walk again.

A Successful Campaign in Shirdi

The recent campaign in Shirdi saw Jaipur Foot's team setting up a comprehensive on-site prosthetic fitment camp. Thousands of individuals from economically disadvantaged backgrounds received free artificial limbs, calipers, and mobility aids, bringing hope and confidence back into their lives. These fitment camps represent Jaipur Foot's core philosophy: to reach those in need, wherever they may be.

Founder **D.R. Mehta**, a passionate humanitarian and former civil servant, highlights the importance of such initiatives, stating, *"Our mission is to provide mobility to every individual who needs it. We believe that financial barriers should never stop someone from living a dignified, mobile life."*

A Legacy of Global Impact

With over 104 fitment camps held in 42 countries, Jaipur Foot has had a far-reaching global impact, touching lives not only in India but also across Africa, Asia, and Latin America. Partnering with the Government of India and international NGOs, Jaipur Foot's work extends beyond borders, bringing the gift of mobility to countless people around the world.

Why Support Jaipur Foot

While Jaipur Foot's work continues to transform lives, the organization depends on generous contributions from individuals, corporations, and governments to fund its operations. Your support can directly help someone regain the ability to walk, work, and thrive. Every donation goes towards maintaining Jaipur Foot's services and ensuring more

individuals have access to prosthetic limbs.

Jaipur Foot welcomes partnerships with philanthropists, businesses, and government bodies to continue its efforts. Contributions can be made online, ensuring that every rupee or dollar helps restore dignity and mobility to those in need.

A Future of Hope and Mobility

Jaipur Foot remains committed to its mission, striving to expand its reach and help even more people. By supporting Jaipur Foot, you are contributing to a movement that empowers individuals, families, and communities. Your generosity allows us to keep providing this critical service, giving hope and mobility to the differently-abled, and creating a more inclusive world.
