

KaarTech Bets Big on SAP CTRM as Commodity Market Volatility Fuels Enterprise Transformation Demand

Category: Business

written by News Mall | February 23, 2026

KaarTech, a global digital transformation consulting firm, announced that [SAPOCOM Technologies](#) had formally joined as an associate company. This strategic alignment enhances KaarTech's capabilities in Commodity Trading and Risk

Management (CTRM) and marks a focused step toward building deeper vertical expertise for asset-intensive, trading-led enterprises.

KaarTech Bets Big on SAP CTRM as Commodity Market Volatility Fuels Enterprise Transformation Demand

SAPOCOM brings a well-established reputation in the CTRM space, with extensive hands-on experience in SAP-based implementations across the commodity lifecycle. Its portfolio includes successful engagements in contract management, risk

reporting, and downstream commodity trading, all of which require both technical depth and nuanced industry expertise.

This association adds agility and depth to KaarTech's growing CTRM practice. Building on its track record of delivering SAP CTRM and SAP S/4HANA programs across Oil and Gas, Energy, Mining, and Metals, KaarTech continues to support greenfield transformations, global rollouts, and platform modernization initiatives.

With over 75+ SAP S/4HANA engagements globally and 3,200+ SAP transformation projects delivered across 15+ countries, KaarTech brings enterprise-scale execution capabilities to complex trading environments.

"CTRM is a high-impact, niche domain with significant scale in the Oil & Gas sector. Our strategic association with SAPOCOM is a focused market-entry investment for KaarTech, combining deep SAP CTRM expertise with strong cultural and business alignment to accelerate value for global commodity enterprises," said **Selvakumaran M, Co-Founder and Director, KaarTech.**

With SAPOCOM's CTRM expertise embedded into its consulting and delivery approach, KaarTech is well-positioned to advise and execute across both the strategic and operational dimensions of commodity transformation. Together, the two organizations offer a differentiated capability that marries deep domain specialization with enterprise-scale transformation execution.

Together, the two organizations offer a differentiated capability that combines deep CTRM domain specialization with enterprise-scale SAP execution reinforcing KaarTech's positioning as a solutions-led transformation partner rather than a traditional SAP implementation provider.

This association reinforces KaarTech's position as a trusted partner for organizations seeking to navigate the evolving demands of global commodity markets with resilience, compliance, and strategic clarity.
