

PBP EcoAqua Celebrates 100 Orders – Trusted by India's Finest Hospitality Brands

Category: Business

written by News Mall | November 19, 2025

PBP EcoAqua, one of India's fastest-growing innovators in automated, sustainable water bottling systems, proudly announces the achievement of 100 successful orders – a defining milestone that underscores the company's rapid rise, strong customer trust, and unwavering focus on eco-conscious hydration.

PBP EcoAqua 480BPH – Fully Automatic Bottling Plant

From luxury hospitality to large-scale corporate operations, PBP EcoAqua's solutions have been embraced by some of India's most prestigious hotel brands, including Taj, ITC Hotels, JW Marriott, Fairmont, Raffles, Shangri-La, The Imperial, Novotel, Hilton, and InterContinental. Their confidence in [PBP EcoAqua](#) highlights the company's reliability and premium quality standards.

With over 100 clients, partnerships with 30 leading brands, a presence in 39 cities, and an output of 1 million bottles per month – crossing 53 million bottles produced so far – PBP EcoAqua has firmly positioned itself as a pioneer in the sustainable water industry.

"Our 100-order milestone is a collective victory," said **P. B.**

Prasad, Founder of PBP EcoAqua. *“It reflects the trust of the country’s finest hotels and organizations, who rely on us for purity, consistency, and a commitment to a greener future. Their support strengthens our purpose and fuels our mission to redefine responsible hydration.”*

PBP EcoAqua’s machines – fully automatic, manufactured in-house, and powered by advanced IoT controls – set new benchmarks in efficiency and transparency. The company’s environment-friendly CDI water treatment system, CE Certification, and active commitment to EcoVadis sustainability standards further reinforce its stature as a globally aligned, quality-driven manufacturing brand.

This milestone comes at a moment of expansion, as PBP EcoAqua accelerates its R&D efforts and prepares to introduce next-generation innovations for 2026 and beyond.
