Hon'ble Prime Minister Shri Narendra Modi inaugurated the first phase of the 450-bedded Namo Hospital in Silvassa, Dadra and Nagar Haveli. The Rs. 460 crore facility is a state-of-the-art healthcare institution, designed to provide advanced medical services to the region. The Prime Minister also launched multiple public welfare projects worth over Rs. 2,500 crore, including new hospitals, schools, and critical infrastructure initiatives aimed at enhancing public services and healthcare accessibility.

PM Modi Inaugurates Indias 1st AI Total Knee Replacement Robotic System – MISSO at Namo Hospital, Silvassa

During his visit, PM Modi reviewed the 3D model of the upcoming hospital, appreciating its modern medical infrastructure. A significant highlight of the event was the demonstration of Misso, India's first indigenously developed AI-powered robotic system for knee replacement surgery, presented by Meril's CEO, Mr. Vivek Shah.

"At Meril, we are committed to developing innovative, world-class technologies that not only enhance surgical precision but also improve clinical outcomes and patient recovery. Misso represents a proud milestone in India's journey towards self-reliance in advanced medical technology," said **Mr. Vivek Shah, CEO, Meril.**

This cutting-edge technology is poised to revolutionize orthopedic surgeries in India, offering greater precision and improved patient outcomes.

The Prime Minister expressed keen interest in the innovation and technological advancements driving India's healthcare sector. He emphasized the importance of indigenous medical technology in making high-quality healthcare more accessible.

The launch of Namo Hospital marks a crucial step in strengthening India's medical ecosystem and reaffirms the country's commitment to world-class healthcare infrastructure.
