- Signify displays its latest UltraEfficient LED range, NatureConnect, SootheSpace, and Connected Lighting Solutions
- Portfolio reflects company's commitment to energy conservation, sustainability, and human-centric innovation

Signify (Euronext: LIGHT), the world leader in lighting, today showcased its latest portfolio of innovative and sustainable lighting solutions at the International Electrical and Consumer Goods Manufacturing (#IECGM2025India), organized by the Bureau of Indian Standards (BIS). The event, inaugurated by Shri Piyush Goyal, Hon'ble Minister of Commerce & Industry, underscores India's commitment to aligning international standards with national requirements and advancing the country's sustainability goals.

Shri Piyush Goyal, Honourable Minister of Commerce and Industry, Government of India, inaugurates the Signify pavilion at IECGM 2025, alongside Sumit Joshi, CEO & MD, Signify Greater India

Signify unveiled four groundbreaking product lines designed to redefine lighting efficiency, sustainability, and user wellbeing. These solutions demonstrate how advanced lighting can power Indian industries, offices, public spaces, and streets with energy savings, comfort, and smarter performance.

- **Philips UltraEfficient Range:** A next-generation series of LED lighting products engineered to deliver substantial energy savings compared to conventional LEDs installed over the last decade.
- **Outdoor:** Road and Street light luminaires, Solar Street lights, Solar Post-Top systems
- **Indoor:** Highbay range for industrial applications
- **NatureConnect** – An indoor lighting solution that mimics daylight and replicates a virtual sky view. Through dynamic light scenes, it enhances energy levels, improves mood, and helps windowless indoor spaces feel in sync with nature transforming them into productive, inspiring, and relaxing environments.
- **SootheSpace** – A first-of-its-kind, high-efficiency, glare-free luminaire that balances visual comfort, wellness benefits, and sustainability
- **Connected Lighting Solutions** – Intelligent lighting systems for both indoor and outdoor applications that unlock significant energy savings while enhancing user comfort, safety, and convenience. These solutions feature advanced functionalities such as energy monitoring, remote management, and automated operation, making spaces more efficient and responsive.

Sumit Joshi, CEO & MD, Signify Greater India, said, *“At Signify, our purpose goes beyond technology. It is about lighting up India’s industries, offices, streets, and communities in a way that drives progress and sustainability. As the country advances towards its energy efficiency and smart infrastructure goals, we are proud to contribute with solutions that balance innovation, human wellbeing, and environmental responsibility. IECGM2025India gives us the perfect platform to demonstrate how light can be a true*

enabler of growth, comfort, and resilience for the nation.”

Girish K Chawla, Head of Professional Business, Signify, added, “At Signify, we are committed to developing solutions that not only reduce energy consumption but also improve the quality of life for users. Our showcase at IECGM2025India highlights how our portfolio is designed to meet India’s evolving needs – from UltraEfficient LEDs that deliver significant energy savings, to human-centric solutions like NatureConnect and SootheSpace, and intelligent Connected Lighting systems for indoor and outdoor applications. Together, these innovations are not only cutting energy use but also creating healthier, smarter, and more sustainable environments across the country.”

With this showcase at IECGM2025India, Signify reinforces its leadership in driving sustainable lighting innovation and highlights its ongoing commitment to supporting India’s transition towards a greener and smarter future.

About Signify

[Signify](#) (Euronext: LIGHT) is the world leader in lighting for professionals, consumers, and the Internet of Things.
