The Nation's Largest & Most Influential Collections Platform

And behind this powerful platform stands [The Brainalytics](#) – the unique organisers and creators of the Bharat Collection Summit, known for building industry-defining forums that go beyond events to shape national conversations.

A Sector at a Critical Turning Point

Collections in India is undergoing a structural shift.

Regulations are tightening.

Borrower awareness is increasing.

Technology is transforming recovery frameworks.

Reputation risk is under sharper scrutiny than ever before.

Collections is no longer a recovery back-office—it is a strategic driver of portfolio health, compliance credibility, and long-term customer trust.

This transformation demands more than routine discussions. It calls for direction, alignment, and bold leadership.

That's exactly what the Bharat Collection Summit & Awards 2026 delivers.

More Than a Summit. A Strategic Platform.

After two transformative editions, the Summit returns stronger than ever, bringing together India's most influential voices across:

- Banks & NBFCs
- Fintech lenders
- ARCs
- Digital collections platforms
- Legal & compliance experts
- Risk, analytics, and operations leaders

This is not a generic conference. It is a curated ecosystem conversation—one that connects policy with practice, data with decisions, and compliance with customer empathy.

From regulatory frameworks to AI-driven recovery engines, from field force transformation to omnichannel borrower engagement—the platform addresses the full spectrum of modern

collections.

Building the Future of Responsible Collections – Our Ecosystem Partners

At the Bharat Collection Summit & Awards 2026, collaboration is not an afterthought – it is the foundation.

As India's only platform spanning the entire collections value chain, the Summit is powered by a distinguished network of ecosystem partners who bring innovation, regulatory depth, operational excellence, and technological advancement to the forefront of responsible recovery.
