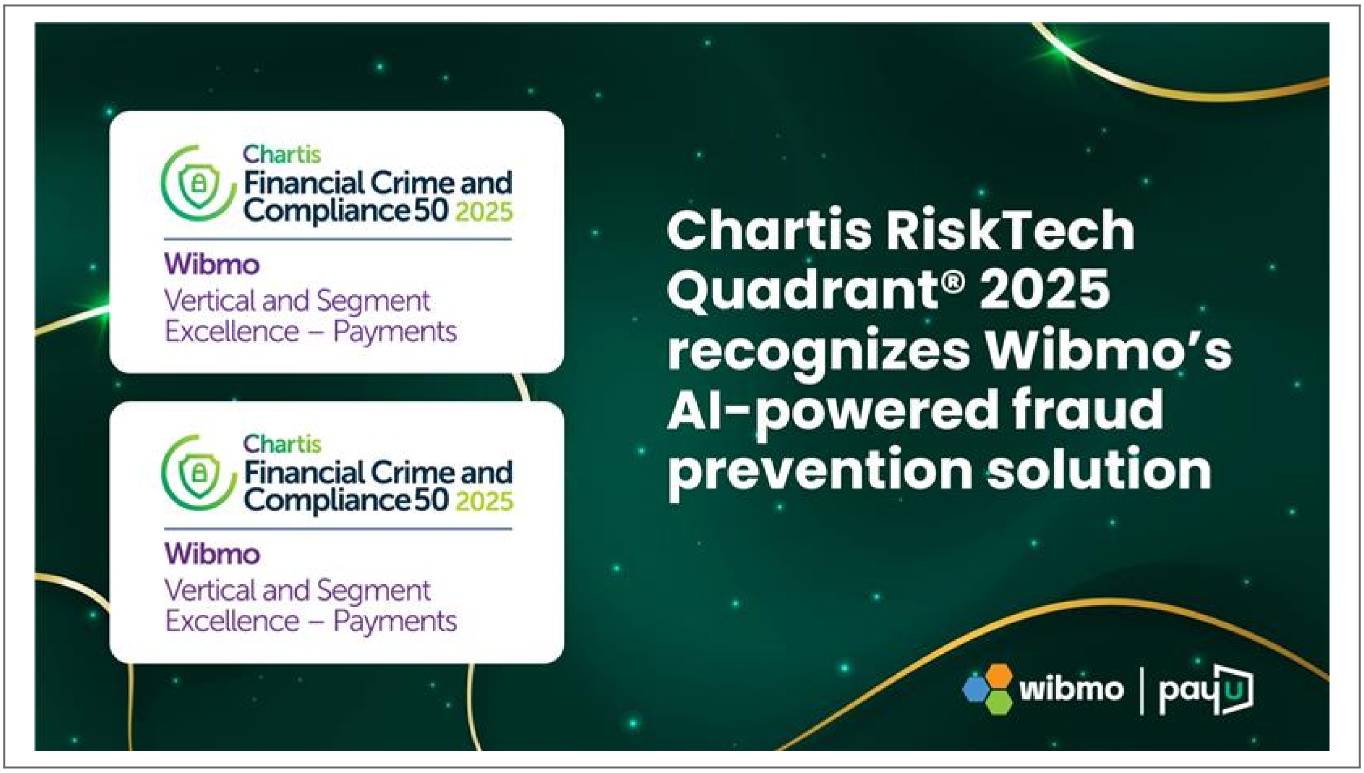
Wibmo Recognized as a Category Leader for Fraud & Risk Management by Chartis

Category: Business
written by News Mall | August 26, 2025

Wibmo, a PayU company, has been recognized as a **Category Leader** in the prestigious **Chartis RiskTech Quadrant 2025** for both Fraud Platforms and Payment Fraud Solutions. This recognition reflects Wibmo's robustness in safeguarding the digital payments ecosystem and sharp focus on innovation.

The **Chartis RiskTech Quadrant**, widely regarded as a trusted guide for decision-makers in financial risk and technology, evaluates solution providers based on completeness of offering and market potential. Being featured among the leaders in this space signals not just technological capability but also strategic relevance and proven market success.



Wibmo Recognized as a Category Leader for Fraud & Risk Management by Chartis

Wibmos flagship **Trident FRM** has been setting the gold standard for next-generation fraud risk management. Trusted by major banks and institutions across global markets, Trident delivers intelligent protection without compromising speed or user experience.

Capabilities & Performance Highlights

- **AI-powered behavioral analytics and anomaly detection**:continuously evolving models that catch fraud patterns early while **enhancing customer experience** through accurate fraud detection with minimal false positives
- **FastSub-100ms response times**:real-time protection that **maintains seamless customer journeys** without transaction delays
- **ComprehensiveCross-channel fraud protection**:coverage for **acquiring, issuing, and banking channels** across financial and non-financial transaction fraud types

across cards, digital payments, and wallets

- **Real-time hyper-scale processing**:handles millions of transactions monthly with minimal latency
- **Regulatory compliance framework**:configurable compliance tools with automated reporting capabilities and comprehensive audit trails to support adherence to applicable financial regulations
- **PowerfulZero-code agility**:In-built fraud prevention intelligence, DIY Rule Builder enabling instant threat response while **streamlining risk operations and compliance workflows**

"As reflected in our latest anti-fraud quadrants, Wibmo has emerged as a strong contender in the areas of payment fraud and platforms," said **Sid Dash, Chief Researcher at Chartis***. "It has achieved this with a solution that offers exceptional scalability and real-time response, alongside multichannel support and – a key strategic theme – advanced modelling capabilities (including no-code extendibility)."*

Shailesh Paul, **CEO of Wibmo**, said, *"We're proud to be featured as a Category Leader for Fraud Platforms and Payment Fraud Solutions in this year's Chartis RiskTech Quadrants. This recognition reaffirms our commitment to building scalable, data-driven, intelligent and adaptive fraud prevention tools. Wibmo's Trident FRM is future ready – empowering financial institutions to stay one step ahead in an ever-changing threat landscape."*
