

# Zoivane Pets Expanded its Range of Premium Pet Care Products

Category: Business

written by News Mall | January 14, 2025

[Zoivane Pets](#), a pioneering pet care brand founded by Nishma Singhal, has launched an all-encompassing range of over 150 [premium-quality products](#) to make the lives of pet parents easy and joyful by addressing everyday challenges like training, grooming, and maintaining a hygienic home, Zoivane Pets has become a trusted name for pet parents across India.

**Nishma Singhal, Founder, Zoivane Pets**

The brand's innovative offerings include its **Pet Behavior Corrector Spray**, which is a safe and humane solution for addressing unwanted behaviors such as barking, jumping, and food stealing. By mimicking natural animal warnings with a hiss sound, this spray interrupts bad habits and fosters positive behavior when used alongside a rewards-based training approach.

Another featured product is the **Potty Training Spray**, a patented formulation designed to train pets to urinate or defecate in specified areas by sending them an odd fragrance. The spray is safe and non-toxic and may also be used indoors or outside: a great product that will help new pet parents with house training.

Aims to keep your home clean and smelling good, the brand offers **Pet Odor Remover** with a black currant fragrance. It is

a strong but non-toxic formula for removing tough pet odors from surfaces such as carpets, upholstery, and bedding, with refreshing black currant fragrance as a residue.

Complementing the first one is **Pet Stain and Odor Eliminator Spray**, meant to eliminate persistent stains and combat odors, such as pet urine. It has a mild, refreshing scent that leaves the home feeling clean and inviting. It is safe for use on carpets, furniture, and other surfaces, ensuring your home remains fresh and clean.

**The Home Cleaning Kit for Pet Parents** is, therefore, another one of its solutions for cleanliness. It is a special collection tailored for pet owners, consisting of products that are environmentally safe for cleaning. This makes it a lot easier to maintain a healthy home for you and your pet.

**Nishma Singhal, Founder, Zoivane Pets** said, *"Our mission at Zoivane Pets is to make pet parenting joyful and easy-going. Products we create are yet another way that we keep true to our commitment toward innovation, safety, and sustainability. We aim to build a bridge between pets and their parents to provide effective solutions that ensure their daily fun."*

With a focus on natural, safe, and practical pet care solutions, Zoivane Pets revolutionizes the way pet parents care for their furry companions.
